I am responsible for ensuring that the data transferred to the cloud complies with the appropriate authorities and I also manage some side dashboards. The thing I prefer is to get in touch with several teams around the world and talk to new and stimulating people every day. This can be difficult at first, but also super reward, as it undoubtedly will prepare for a successful career. Kieran I completed a degree course in geology and interested me to work with a client in the energy sector. Kieran My main suggestion would be to apply yourself to develop a profound understanding of your field and become a matter expert. The FDM also offered me the possibility of being interviewed by large companies, which would normally be very difficult for the recent graduates to access. What is your academic and professional level? As a team, we had to quickly adapt and divide the work between us. He also showed me how important it is to have and show trust.
